

FOX VALLEY METROLOGY

Managing your gages doesn't have to be a pain.

Focus on the projects that matter.

Let us take care of the rest.

Don't Settle for Slow Quick Calibration Shouldn't Cost More

There are enough details to worry about when managing the quality of your product—the accuracy of your measuring equipment shouldn't be one of them. Fox Valley Metrology is your single-source partner in quality assurance. We calibrate, repair, and sell the vital tools your operation needs to stay on target and on budget. With our unbeatable service speeds, highly skilled experts, and dedication to quality, you can focus on the projects that matter. Let us take care of the rest.

Fast. Precise. Easy.

We offer an unbeatable **turnaround time of three to five days** for all calibration services.

Quality is a guarantee as all calibrations meet the **ISO/IEC 17025 standard**.

Our gage management services **reduce your administrative workload by up to 80%**.

Beyond Five-Star Service

“Five stars is not enough. I have never been disappointed in the service from Fox Valley Metrology.

You are one of the best in the industry.

– Daniel Scott, LMI Aerospace

An Emerging Leader in the Calibration Industry

Homegrown

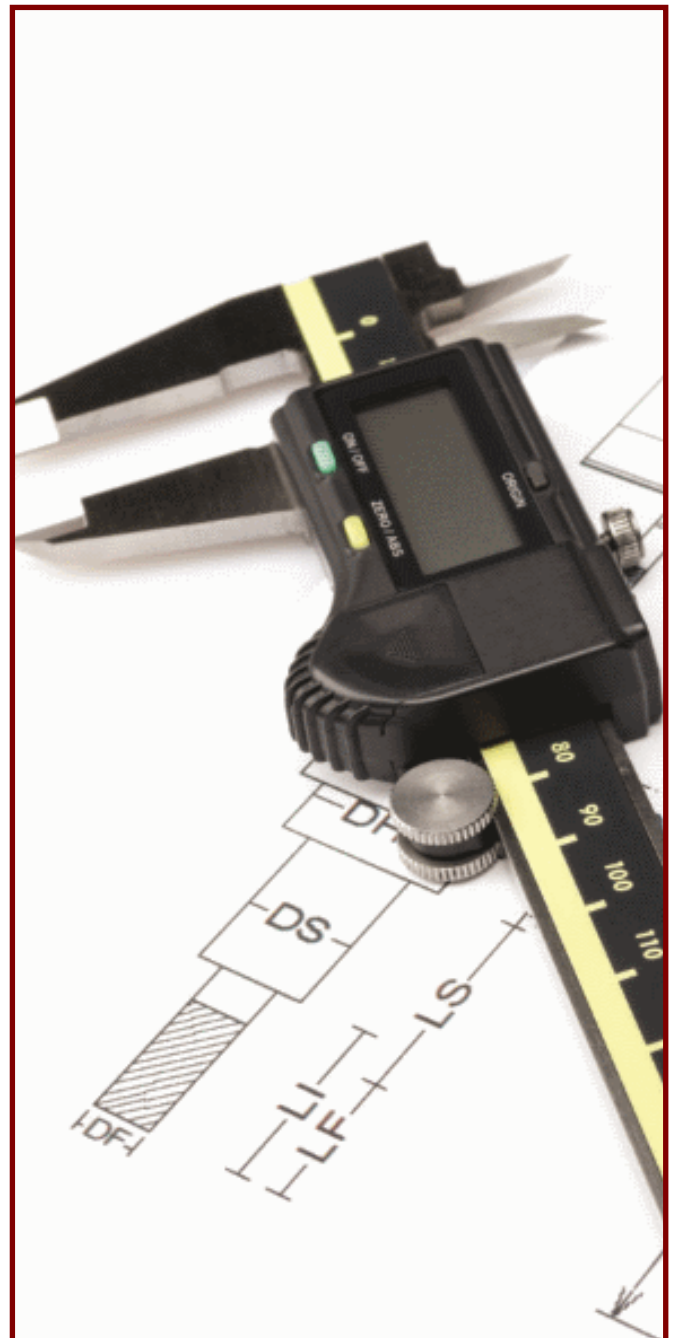

We're a first-generation family-owned business that has grown to 250+ employees and 7,000+ customers across the U.S.

Local

With facilities across the U.S., we are sure to have support right in your backyard.

Accredited

Every service meets the ISO/IEC 17025 standard for calibration and testing laboratories, so our quality is a guarantee.

A Level of Accuracy Others Can't Touch

 We just recently switched from another calibration company, and the change is like night and day.

We are truly happy with the service we are getting at FVM!

– Elexis Rogers, Extreme Engineering Solutions

Onsite Calibration

Service at Your Facility

Laboratory Calibration

Controlled Environments

3 to 5 Day Turnaround

Measure With Confidence

Service Simplified, Precision Guaranteed

Calibration

Our high-accuracy, accredited calibration services can be provided onsite or offsite to accommodate your needs. Delivery or pickup options are available and all certificates and labels are free.

Repair

We offer no-charge evaluations and quotes. If repairs are necessary, our experts will complete them fast to minimize downtime and add years to your equipment's service life.

Sales

Our inventory is fully stocked with the right products for your unique applications. This includes gaging, precision measurement tools, metrology systems, and much more.

Contract Measurement

With in-house contact and scanning measurement systems, you can offload your inspection backlog or those unique inspections that you don't have current capabilities for.

Gage Management

Metrology360, our free, user-friendly platform that tracks essentials like calibration due dates, certificates, quotes, purchase orders and more. No more clunky Excel spreadsheets, no more expensive software licensing.
